

Prepared independently by the Advocate

Preliminary Property Records Verification Report

Preliminary verification based on documents furnished and available public records

Report No.	SAMPLE / PLAN-999
Verification Date	DD.MM.YYYY
Client Name	[Withheld — sample report]

01 | Property Details

Property Location	Plot Nos. P-1 & P-2 in a private plotted layout, [●] (location withheld)
Village / Mohalla	Village [●] (name and village code withheld)
Tehsil / District	[●] / [●], Uttar Pradesh
Khasra / Gata No.	Gata No. XXX — recorded on two khata: Khata A (class 1-Ka, transferable bhumidhari, 0.600 ha) and Khata B (class 4-Ka(Kha), urban ceiling surplus entry). The vendor is identified through the mutation entries. The layout plan carries no gata numbers; the location of P-1 & P-2 within Gata XXX is not yet confirmed
Property Area	P-1 and P-2: 20 ft × 40 ft = 800 sq ft each; total 1,600 sq ft (≈ 148.6 sq m) as per layout plan. Vendor's recorded share: 0.0125 ha (125 sq m ≈ 1,345.5 sq ft) — SHORT by about 254 sq ft . Total area of Gata XXX: 0.600 ha (Khata A)
Nature of Property	Land originally declared surplus under the Urban Land Ceiling Act and released under a High Court judgment; now held by the vendor as sankramaniya bhumidhar. Layout sanction not shown on plan
Vendor / Proposed Vendor	Vendor V-1 (name, parentage and address withheld) — the recorded landowner. The sale deed is stated to be executed by the landowner, with the developer acting under an agreement with him (agreement not produced)

02 | Documents Provided

- ☒ Online khataunis (Bhulekh, unattested copies) of Khata A and Khata B for the current fasli period — downloaded and examined by the undersigned advocate
- ☒ Search results: RCCMS gata-wise search for Gata XXX; High Court case status of the ceiling-release writ petition; party-wise searches on RCCMS, District Court e-Courts portals (district of the land and districts of the vendor's residence), the High Court and the Supreme Court, as per Sections 04–05
- ☒ Layout plan of the colony as issued by the developer
- ☐ Documents not yet provided: vendor's own sale deed; sale deed in favour of the vendor's spouse; developer's agreement with the landowner and any power of attorney; booking/allotment document for P-1 & P-2; layout-to-khasra correlation sketch; layout sanction (if any); certified khataunis for Khata A and Khata B

Date of Receipt of Documents: DD.MM.YYYY

Date of Record Verification: DD.MM.YYYY

03 | Preliminary Verification of Ownership Records

Point of Verification	Status	Remarks
Name recorded in the available record		No current record shows the vendor as owner. In Khata A (the bhumidhari khata for Gata XXX) the khatedar column is blank ("--- / --- / ---"). In Khata B the khatedar column shows Gata XXX as "Anya Bhumi / Atirikt Ghoshit Bhumi / Shahri Ceiling". The vendor's purchase of 0.0125 ha from the ceiling-released landholder (P) appears only in the mutation remarks (order of the Naib Tehsildar, mutation case no. XXXX). The portal notes that orders before 01.07.2020 have been archived and are subject to verification.
Vendor and name in the record		The proposed vendor named by the developer matches the purchaser recorded in the mutation entries. His identity documents must match the parentage and both addresses shown in the record.
Khasra / Gata No.		Gata XXX is identified through the mutation entry only. The layout plan shows no gata numbers, and the colony covers about 1.9 ha belonging to several owners. It is not yet established that P-1 & P-2 lie on the vendor's portion.
Area		P-1 & P-2 together measure 1,600 sq ft; the vendor holds only 1,345.5 sq ft — a shortfall of about 254 sq ft. The vendor's spouse (V-2) holds a further 0.0050 ha (≈ 538.2 sq ft) of Gata XXX by a separate mutated sale. She must join the sale deed as co-vendor, or the area of the sale must be reduced. The total area of Gata XXX is 0.600 ha per Khata A; the figure of 600.0000 in Khata B is a unit error. Sales out of Gata XXX by the predecessor and his heirs total about 0.41 ha, within 0.600 ha, so no over-selling is indicated.
Property description (boundaries)		P-1 & P-2 are adjacent plots in one row of the layout, fronting a 25 ft internal road. Boundaries of the vendor's land cannot be checked until his own sale deed is produced.
Available title documents (ceiling release / mutation)		Chain traced: ceiling entry over Gata XXX expunged in compliance of a High Court judgment in the predecessor's writ petition (recorded in the khatauni) → predecessor recorded as bhumidhar → sale to the vendor, mutated → no onward sale, succession or adverse order against his share up to the last entry in the khatauni.
Consistency between documents and records		Gata XXX is recorded on two khatas at the same time: Khata B as urban ceiling surplus, and Khata A as bhumidhari land with no holder named. The ceiling entry was not removed from the computerised record despite the release. This requires correction by the Tehsildar under Section 38 of the U.P. Revenue Code, 2006 before registration. The layout legend also shows the 12 P-plots as 9,200 sq ft, whereas $800 \times 12 = 9,600$ sq ft. The advertised claims ("dakhil-kharij", "Nagar Nigam", "loan available") are not verified.
Layout sanction		The layout plan carries no sanction or approval reference, and no approval by the development authority has been produced. An unsanctioned layout may affect building-map approval and bank finance.
Authority of developer		The developer's agreement with the landowner has not been produced. No payment should be made to the developer until its terms are seen.

Point of Verification	Status	Remarks
Pending proceeding on the land		RCCMS shows a PENDING original suit under Section 34 of the U.P. Revenue Code, 2006 (mutation) before the Naib Tehsildar: Case No. XXXXX/2026, Plaintiff X vs. Defendant Y & others, filed this month, at the stage of plaintiff's evidence. The disputed land is shown as Khata A, Gata XXX (whole 0.6000 ha). Defendant Y does not appear anywhere in the khatauni's mutation history, which indicates an unrecorded transaction in Gata XXX. It is not yet known which portion of the gata this claim concerns.

Meaning of Status

-  Consistent with available records
-  Discrepancy found / further verification required
-  Material discrepancy / adverse fact found

«IMPORTANT: The above status is based solely on a comparison of the documents and records examined. It is not to be treated as proof or a guarantee of the property's legal title or undisputed right.»

04 | Civil Court Records Verification**Result of Verification**

- ☒ No related adverse suit/proceeding found in the records examined
- ☐ A related suit/proceeding was found
- ☐ The verification could not be conclusively completed on the information available

Remarks: Party-wise searches were carried out on the District Court e-Courts portals (district of the land and the districts of the vendor's residence), the High Court and the Supreme Court, against the vendor, his spouse, the predecessor and the predecessor's heirs. No civil suit concerning Gata XXX or the vendor was found. The results were:

- **High Court, Writ-C No. XXXXX/20XX, predecessor (P) vs. State of U.P.:** DISPOSED by a Division Bench — "Allowed/Partly Allowed on merits". This confirms the judgment on which the ceiling release rests. No special appeal or SLP by the State was found.
- **District Court, a criminal case against a person of the same name as the predecessor,** disposed several years ago. The accused's parentage is not shown and the police station is not the area of the subject land, so it is not established that he is the same person. In any event it is not a land or title proceeding and does not affect the vendor's title.

Online results carry no legal sanctity; certified copies may be obtained if required.

05 | Revenue Court / Authority Records Verification**Result of Verification**

- ☐ No related adverse suit/proceeding found in the records examined
- ☒ A related suit/proceeding was found
- ☐ The verification could not be conclusively completed on the information available

Remarks: A gata-wise search on RCCMS (vaad.up.nic.in) shows one PENDING case on Gata XXX:

Court	Naib Tehsildar, Tehsil [●]
Case No.	XXXXX/2026 — Computerised No. TXXXXXXXXXXXXXXXXX
Parties	Plaintiff X (plaintiff) vs. Defendant Y & others (defendants)
Nature / Provision	Original suit — Section 34, U.P. Revenue Code, 2006 (mutation)
Filed / Stage	Filed this month — plaintiff's evidence
Next Date	DD.MM.YYYY
Land	Khata A, Gata XXX, 0.6000 ha

This is a mutation proceeding, not a title suit, but it shows that a transfer in Gata XXX by persons (Defendant Y & others) who are not recorded in the khatauni is currently being mutated. Until the case file is inspected, it cannot be ruled out that the claimed land overlaps the vendor's share or Plot Nos. P-1 & P-2. The case file should be inspected (or a certified copy of the plaint and sale deed obtained) before the purchase proceeds; if there is any overlap, an objection should be filed before the next date.

Column (17) of both khataunis is blank even on the date of verification, although this case was filed earlier, so the khatauni column is not up to date. Column (18) records no mortgage. Orders noted in the khatauni under other sections relate to other gatas. Party-wise RCCMS searches against the vendor, his spouse, the predecessor and his heirs disclosed no other case.

06 | Khatauni / Revenue Record

Record examined: Khatauni

Gata No.	Khata No.	Holder per Khatauni	Area (ha)
XXX	A	Class 1-Ka (transferable bhumidhar) — khatedar column BLANK ("--- / --- / ---"), share 1/1	0.600000
XXX	B	Class 4-Ka(Kha) — "Anya Bhumi / Atirikt Ghoshit Bhumi / Shahri Ceiling" (ceiling entry not removed)	600.0000 (units error)
XXX	Remarks	Vendor V-1 — by sale from predecessor (P), mutated	0.0125
XXX	Remarks	V-2 (vendor's spouse) — by sale from predecessor (P), mutated	0.0050
		Total held by vendor's family (sufficient for 1,600 sq ft only if both join)	0.0175 ($\approx$ 1,883.7 sq ft)

Copy of Khatauni:

- ☒ Attached (unattested online copies downloaded from upbhulekh.gov.in) — Khata A and Khata B
- ☒ Additional record required — certified khatauni for Gata XXX showing the vendor's name, after correction of the duplicate ceiling entry on Khata B, from the Tehsil

07 | Result of Preliminary Verification

No clear adverse fact found

No clear adverse fact was found, within the scope of this preliminary verification, in the documents and available records examined.

Further verification required

Further documents, records, physical verification, or a detailed legal review may be required.

Adverse fact / material discrepancy ◀ **APPLIES TO THIS REPORT**

A fact, discrepancy, or proceeding requiring detailed legal review was found during verification.

Key Remarks:

- A revenue proceeding is pending on Gata XXX: an original suit under Section 34 U.P. Revenue Code before the Naib Tehsildar. The defendants are not recorded holders of Gata XXX. The case file must be inspected to confirm whether the claimed land overlaps the vendor's share or P-1 & P-2, before any payment is made.
- The vendor's title to 0.0125 ha of Gata XXX is traceable on record: acquired by registered sale from the ceiling-released landholder and mutated, with no onward transfer or adverse order recorded up to the last entry.
- The vendor alone cannot convey Plot Nos. P-1 & P-2. Their combined area (1,600 sq ft) exceeds his share (1,345.5 sq ft) by about 254 sq ft. His spouse (0.0050 ha) must join the sale deed as co-vendor, or the area of the sale must be restricted to the vendor's own share.
- Gata XXX is recorded on two khata: as urban ceiling surplus on Khata B, and as bhumidhari land with a blank holder column on Khata A. Neither shows the vendor's name. The vendor must get the record corrected under Section 38 of the U.P. Revenue Code, 2006, and a certified khatauni showing his name is required before registration.
- A separate sale out of the same gata to a third party is a different holding and is not part of the vendor's title.
- The land is of urban-ceiling origin. The High Court's case status confirms that the predecessor's writ petition was allowed, and no appeal or SLP by the State was found. No civil suit against the vendor or his predecessors concerning the land was found.
- The layout plan shows no gata numbers or sanction reference. A layout-to-khasra correlation, the vendor's own sale deed, and the developer's agreement with the landowner must be obtained before any payment.

08 | Scope and Limitations of Verification

This report has been prepared on the basis of the documents furnished by the Client, the information provided, and a preliminary verification of the available records referred to in this report.

This report:

1. Is not a guarantee of the property's ownership, right, or undisputed legal title.
2. Does not certify that the property is entirely free from every kind of dispute, claim, encumbrance, mortgage, or liability.
3. Does not include a complete forensic examination of the genuineness/forgery of documents.
4. Cannot include any claim, transaction, or information that is not recorded in the available records.
5. Is not a valuation, technical inspection, or construction-approval certificate for the property.
6. Where necessary, a detailed legal verification is advised before the transaction.

This verification report is based on the information available up to the date it was prepared. It gives no assurance in respect of any new suit, claim, transaction, change in records, or other event occurring thereafter.

09 | Professional Review

This report is signed only to confirm that the preliminary verification set out above was carried out by the undersigned. It does not constitute a final opinion on title and does not certify the property as clear. A final opinion will be issued separately only after the additional records, certified copies, and court searches identified in this report have been obtained and reviewed — in particular inspection of the pending revenue case, the correction of the duplicate ceiling entry and a certified khatauni showing the vendor's name, the vendor's own sale deed, the joinder of the vendor's spouse for the area shortfall, and the developer's agreement with the landowner. Until then, the status of this matter remains as recorded in Section 07 (● Adverse fact / material discrepancy), not ●.

Name of Advocate carrying out the verification/review: [Withheld in sample]

Bar Council Enrolment No.: [Withheld in sample]

Date of Review: DD.MM.YYYY

Signature and Seal: [Withheld in sample]

Note: This is a SAMPLE report. The client, advocate and property details have been removed or masked, and figures have been altered. It is shared only to show the format, depth and method of a Plan 999 verification. [●] and XXX mark withheld details.

Annexures

What is attached to every report (shown here in masked specimen form)

Annexure	Contents	In a real report
A	Online khatauni of every khata on which the gata is recorded (Bhulekh, unattested copy), including the full mutation / order history	Complete copy attached — often 25–45 pages for an old gata with many sales
B	Layout plan / map supplied by the developer, with the subject plot(s) marked	Attached as supplied
C	Printouts of every online court search: District Court e-Courts (party-wise), High Court, Supreme Court and RCCMS (gata-wise and party-wise)	One printout per search, with date and time stamp

In this sample, only one masked specimen page is shown for each annexure, so that no real record, person or property can be identified.

Annexure A — Khatauni (specimen extract, masked)

Village / Code	[●] / XXXXXX
Tehsil / District	[●] / [●]
Fasli period	XXXX-XXXX
Khata No.	A (unique code XXXXXXXXXXXXXXXXX)

Class	Khatedar (name / parentage / address)	Gata No.	Area (ha)	Col. (17) pending case	Col. (18) mortgage
1-Ka	--- / --- / ---	XXX	0.600000	—	—

Mutation / order entries (remarks column) — how each entry is read and traced:

Entry	Order (masked)	What it shows
16–18	Order of Additional Collector / Competent Authority (ULC) in compliance of High Court judgment in Writ No. XXXXX/20XX	Ceiling entry on Gata XXX expunged; predecessor (P) recorded
44–45	Order of Naib Tehsildar, mutation case no. XXXX — sale by P to V-1	Vendor V-1 acquires 0.0125 ha
46	Order of Naib Tehsildar, case no. XXXX — sale by P to a third party	Separate holding; not part of vendor's title
74	Order of Naib Tehsildar, case no. XXXX — sale by P to V-2	Vendor's spouse acquires 0.0050 ha
...	Further entries relating to other gatas / other purchasers	Checked one by one; none affects V-1's share
Last	Latest entry on the khatauni	No onward sale, succession or adverse order against V-1

Specimen only — entries are illustrative and masked; this is not a copy of any real revenue record.

Annexure B — Layout plan (specimen, generic)

Check made on the layout plan	Finding (sample)
Gata / khasra numbers shown on the plan?	No — layout-to-khasra correlation sketch required
Sanction / approval reference on the plan?	No — development-authority approval not produced
Plot size vs. legend totals	Legend total does not match plot sizes × number of plots
Subject plot size vs. vendor's recorded share	Plot area exceeds vendor's share — co-vendor needed

Specimen only — a generic drawing made for this sample; it does not depict any real colony.

Annexure C — Court search log (specimen, masked)

Portal / court	Search type	Searched against	Result
District Court e-Courts (district of the land)	Party name	V-1, V-2, P and P's heirs	1 unrelated criminal case (same name) — not a land matter
District Court e-Courts (vendor's districts of residence)	Party name	V-1, V-2	Nil
High Court	Party name / case no.	P; Writ No. XXXXX/20XX	Writ disposed — allowed; no appeal found
Supreme Court	Party name	V-1, P	Nil
RCCMS (vaad.up.nic.in)	Gata-wise	Gata XXX	1 pending case — Section 34 mutation suit
RCCMS (vaad.up.nic.in)	Party-wise	V-1, V-2, P and P's heirs	Nil

In a real report, each row above is backed by the dated printout of that search. Specimen only — masked.
